🔗 Portfolio

Profile

Energetic and Motivated engineering graduate in ECE. Equipped with IT Skills and practical experience through internships and academic projects. Looking for a challenging position in a dynamic organization to apply my technical proficiency, and analytical capabilities, and leverage my skills to significantly contribute to the company's success and my professional growth.

Education

B.Tech - ECE   2024
Madanapalle Institute of Technology and Science ↗   Madanapalle, India
CGPA - 9.43

Diploma - ECE   2021
BIT Institute of Technology and Science   Hindupur, India
Percentage - 93%

SSC   2018
Sri Krishnadevaraya Vidyalaya   Hindupur, India
CGPA - 9.5

Projects

An IoT-based Smart Parking Guidance System with a Responsive Web Interface
Designed and implemented an advanced parking guidance system leveraging the Internet of Things (IoT) technology and cloud infrastructure. The system offers real-time parking availability updates to users through a user-friendly and responsive web interface, crafted using HTML5, CSS3, and JavaScript.

My Portfolio Website ↗
Developed a modern portfolio website using HTML, CSS, Bootstrap, JavaScript, and Git to showcase my skills and background. The site features a responsive design, and interactive elements, and is hosted on GitHub Pages for easy online access.
